

CHIMAY[®]

Pères Trappistes

Chimay Trappist Monastery

- **BREWERY HISTORY** - In order to meet their needs and those of their foundation, as well as to sustain employment in their region, since 1862 the Cistercian Trappist monks of Chimay have been developing the production of Trappist beers and cheeses which owing to their character and quality are well known and enjoy great success. As the Abbey brewery grew the monks gradually withdrew direct administration with the brew and it is continued today by SA Biere de Chimay.
